# CKD ASSEMBLY FOR GOLF CARTS

## 1. MODULAR DESIGN & PRODUCTION LINE EXPORT:

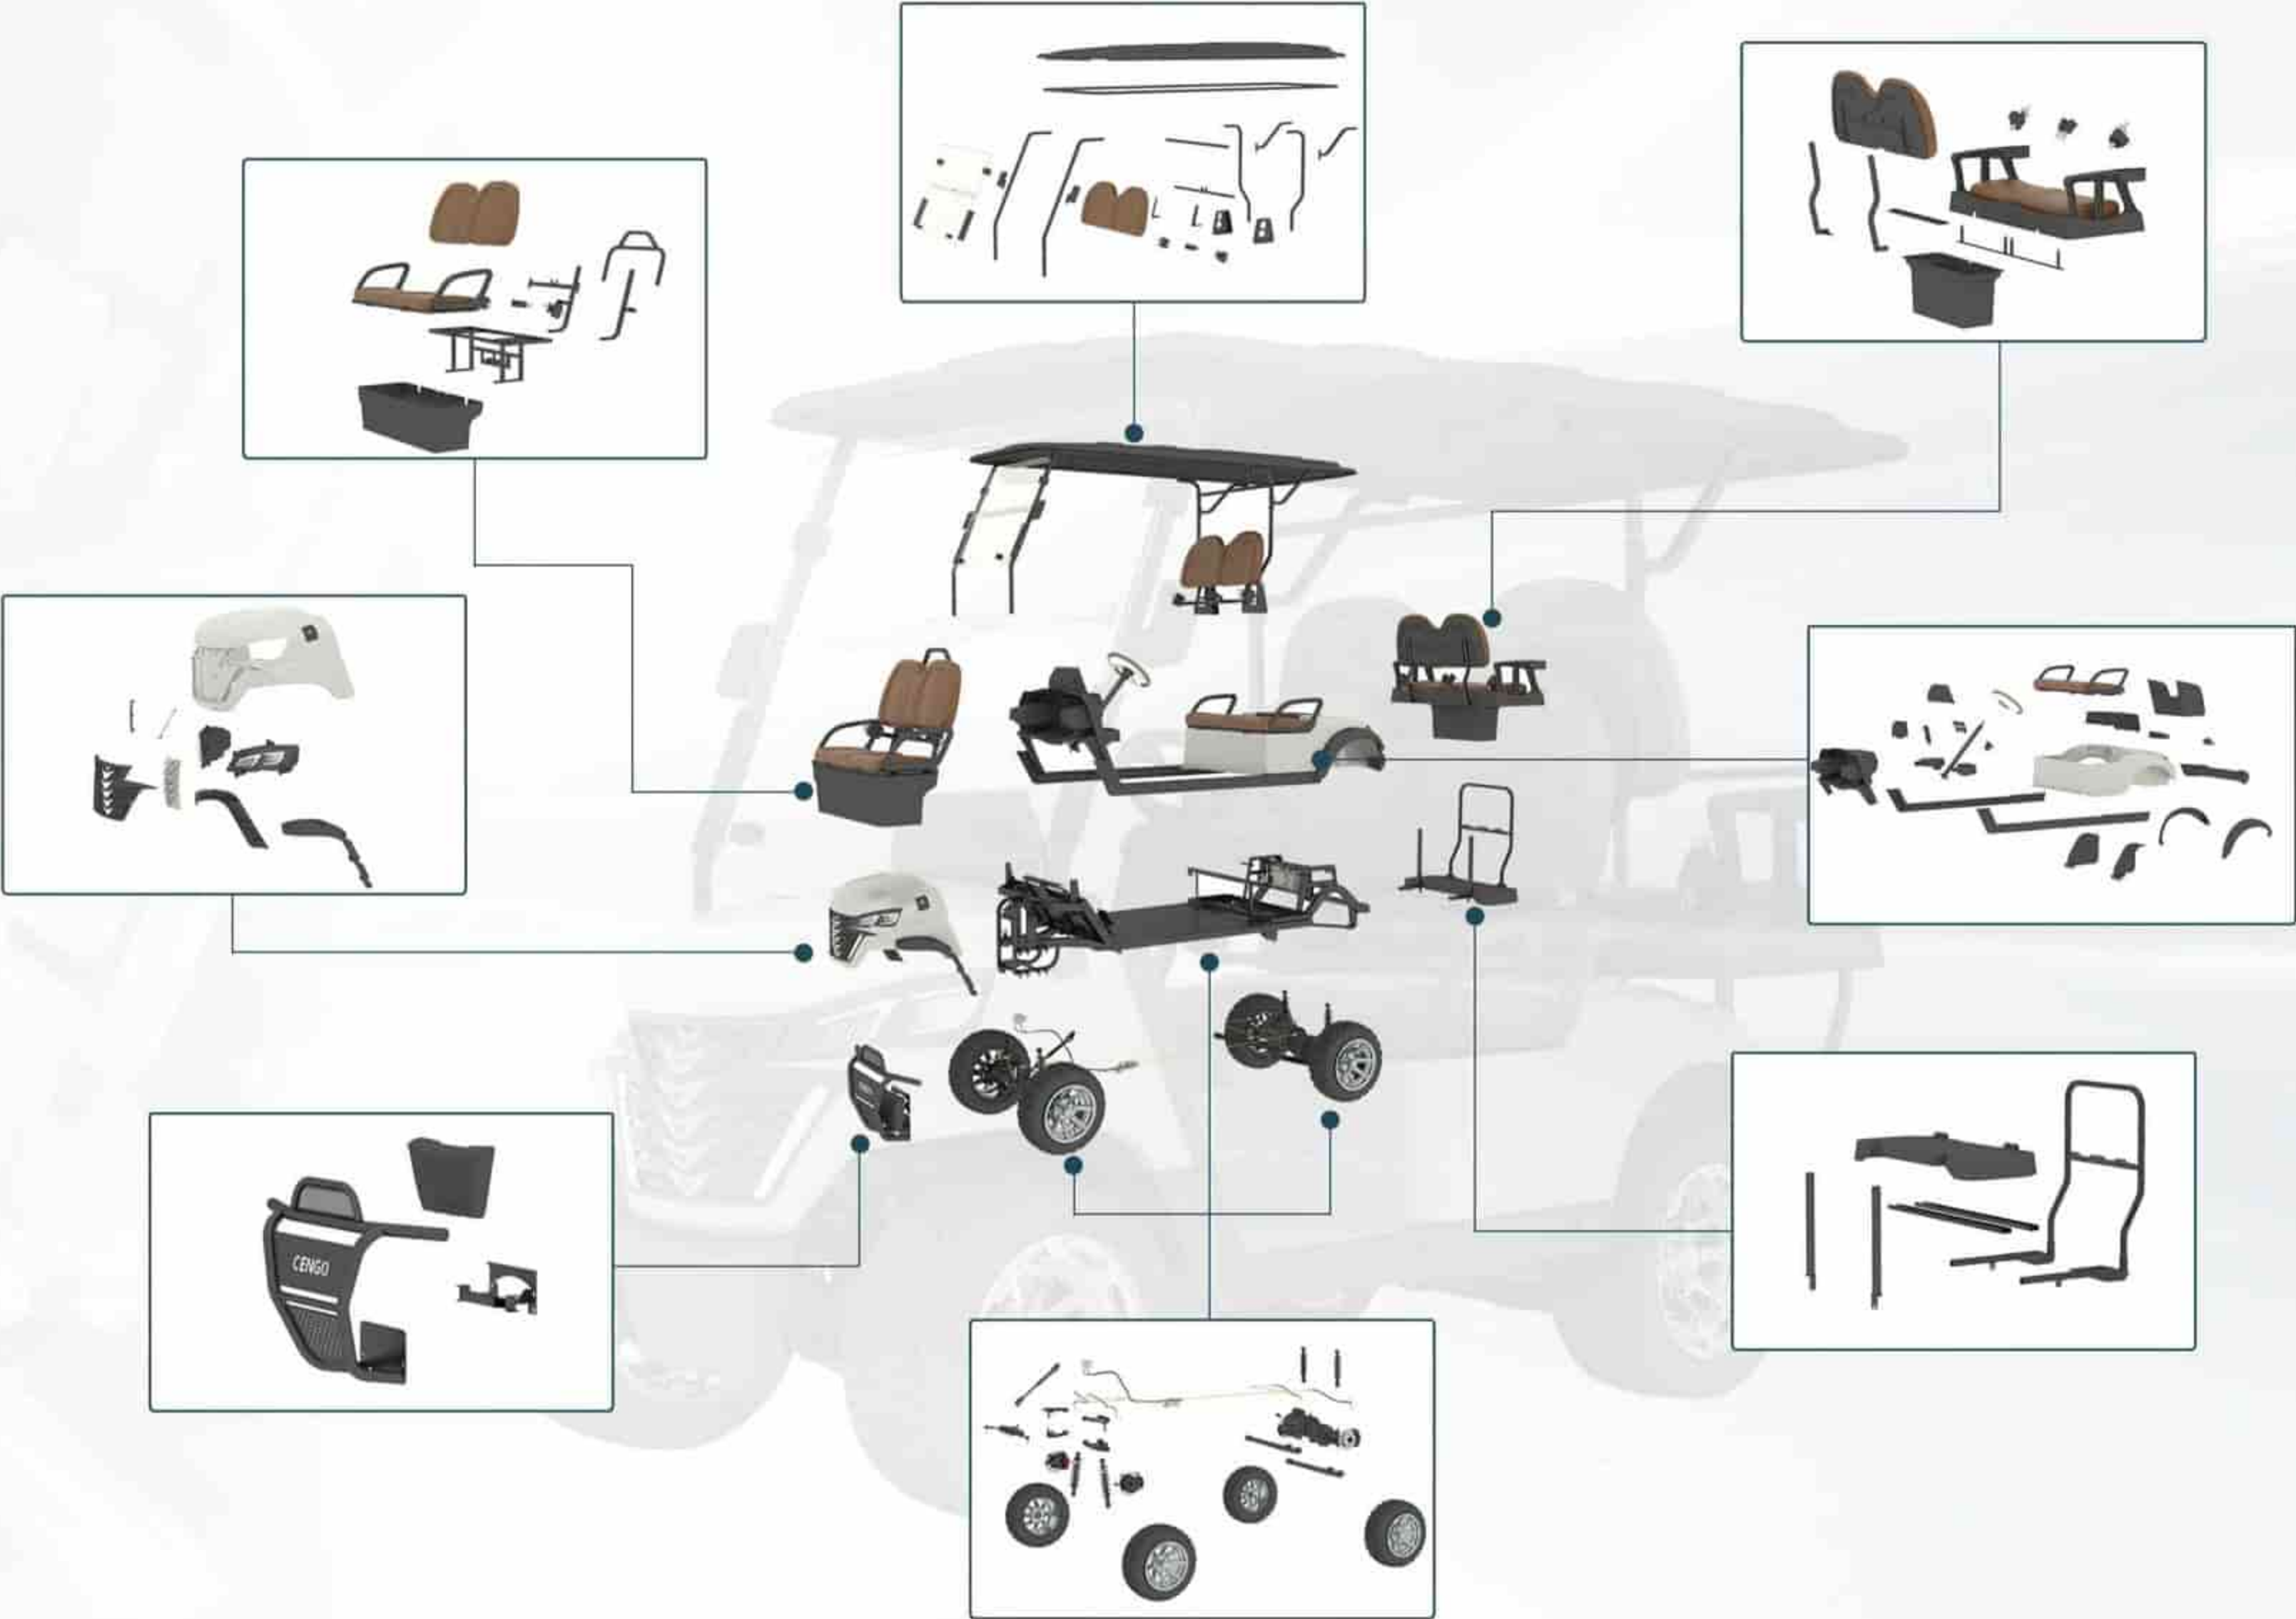

The CKD (Completely Knocked Down) golf carts are manufactured using a modular approach, allowing for the export of production lines to facilitate localized assembly worldwide.

## 2. TECHNICAL SUPPORT INTEGRATION:

The assembly process is supported by comprehensive technical guidance, ensuring seamless collaboration between global production standards and local assembly capabilities.

## 3. CUSTOMIZATION FOCUS:

The modular system enables tailored solutions designed specifically for diverse environments, including scenic resorts, campuses, urban parks, and industrial zones.

This approach positions CKD golf carts as a versatile, cost-efficient, and sustainable transportation choice for a wide range of applications globally.
